What is the course about?

This course introduces you to the fundamentals of using artificial intelligence (AI) tools across a range of everyday settings. You'll gain a solid understanding of how AI can be applied to support your personal or professional needs, with a particular focus on improving and managing your home computer network.

Whether you're a home user seeking better control and efficiency, a parent wanting to restrict inappropriate content, or a small business owner managing a home office network, this course will guide you through practical AI solutions that can help enhance your digital environment.

Why should I choose the course?

This course offers a clear, accessible introduction to AI, making it ideal for those who want to build confidence with new technology. It's a great opportunity to explore how AI can be used in everyday life, whether for improving digital safety, managing devices more effectively, or supporting tasks at home or in a small business. You'll leave with practical skills that are relevant and immediately useful.

What will I learn?

The course will demonstrate the potential of AI.

You will learn how to:

• Understand what AI is, including its foundations and real-world applications
• Recognise how AI works, exploring key concepts and tools
• Use generative AI and large language models (LLMs) effectively
• Identify ethical considerations, bias, and the importance of responsible AI use
• Engage in hands-on AI projects and explore future trends

The tutor will informally assess you, and you will also self-assess your weekly progress.

What will the course lead on to?

On completion of this course, you could progress on to another of our short courses.

We offer a wide variety of part-time adult courses to help you upskill, secure a promotion, go to university, or just meet new friends.

What support is available?

We have a team of staff dedicated to providing learning support if it is required and a Wellbeing Team that are on hand to offer guidance, support and help when needed.

Additionally, eligible students can access a wide range of finance and funding support to help them during their time at college. For personalised advice on funding, please contact our Learner Services Team on 01925 494 400 or email learner.services@wvr.ac.uk.

Why should I choose to study the course at Warrington & Vale Royal College?

Warrington & Vale Royal College offers a welcoming learning environment with modern facilities, ample on-site parking, and expert tuition from knowledgeable and supportive staff. Whether you're just starting out or looking to develop new skills, we're here to help you succeed.

What are the entry requirements?

No prior qualifications are needed to enrol on this course.

Basic computer literacy is required, along with access to a home router and internet connection for hands-on practice.
