

What is the course about?

HNC Construction Management for England opens up an exciting world of opportunity, empowering you for the future. It's ideal if you're seeking a career in the construction industry or wish to progress to complete the second year of the degree or degree apprenticeship. If you're already working in the construction industry, you can use this HNC to upskill or retrain, acquiring valuable experience and gaining vital new skills to support your career progression.

The course will develop your knowledge, skills, and understanding of the construction industry. This includes problem solving, design, planning, and building.

You will achieve a Level 4 HNC Construction Management for England.

The programme can be studied Full time over 1 year (attending college two days per week)

Why should I choose the course?

HNC is a Level 4 qualification that sit between A levels/ T levels and degrees.

This qualification was developed in close collaboration with experts from employers and professional bodies to ensure you gain the skills and knowledge you'll need to succeed in the future. Your learning will be rooted in the real world so that you leave the course, work-ready with the professional skills and behaviours that employers need.

HNC Construction Management for England provides strong foundations for entry into a wide range of careers in the construction industry. Its aim is to produce highly qualified and knowledgeable construction professionals who can meet the requirements of the industry.

What will I learn?

Over the year you will develop skills and knowledge in the following areas:

- The Construction Environment
- Construction Technology
- Legal and Statutory Requirements in Construction
- Surveying, Measuring & Setting-out
- Construction Design Project (Pearson-set)
- Digital Applications for Building Information Modelling
- Financial Management & Business Practices in Construction
- Supervision & Operations

Units will be assessed using a variety of assessment methods including, projects, portfolios, presentations, case studies, reports, and a research project. Alternative assessment methods may be used where appropriate.

We do not guarantee that a non-mandatory unit will always run in any given academic year as options may be dependent on student numbers, sector requirements, and staff expertise.

What will the course lead on to?

The Level 4 Higher National Certificate provides a solid grounding in Construction, Vendor Accredited Certification, and Professional Body membership, upon which students can build; should they decide to continue their studies beyond the Certificate stage.

You can progress on to an HND in construction or the first or second year of a related university degree course. The typical learner who chooses this course lead or is leading to be a:

- Architect
- Mechanical/ Electrical Designer.
- Project Manager.
- Quantity Surveyor.
- Site Manager/ Supervisor.
- Health & Safety Manager.
- Estimator
- Engineer

Typical student destinations include progression to The University of Salford & Liverpool John Moores University (LJMU) to study their chosen path in the Construction such as a BSc Hons in Quantity Surveying, BSc Hons in Project Management, or BSc Hons in Construction Management, and much more.
