

What is the course about?

This short introductory course is aimed at those students wishing to gain some understanding and some practical experience of plumbing.

This course has been introduced to allow a complete novice to gain the confidence to go on to further studies within the plumbing field and to potentially gain a qualification and eventually employment after further studies.

Why should I choose the course?

This short introductory course covers a range of hand-skills and practical tasks in plumbing to give you the introduction that is needed to progress to further studies if required.

What will I learn?

Over the 3 weeks you will be developing skills and knowledge in the following:

- Bending & jointing copper pipes
- How to hang & bleed radiators
- Connecting pipes & fittings to appliances

What will the course lead on to?

On completion of the course students may wish to progress to full certified qualifications in the trade area.

Are there any links with industry and university?

The course is aligned to plumbing practices and can be the first step towards a career in the construction industry if students wish.

Why should I choose to study the course at Warrington & Vale Royal College?

Here at Warrington & Vale Royal College we have a team of dedicated, experienced staff who can share their extensive knowledge and skills with you. Learning in a friendly and inclusive environment, you will be fully supported to achieve your goals.

What are the entry requirements?

There are no formal entry requirements

What are my funding options?

For further information about funding, please contact our Learner Services Team on 01925 494400 or learner.services@wvr.ac.uk

Are there any additional costs associated with the course?

Students will need to purchase a pair of steel toe-capped boots to allow for safe working in the workshop environment.
