

LEVEL 3 DATA TECHNICIAN APPRENTICESHIP

Subject Area
Student Type
Study Mode

Digital
Students aged 16-18
Part Time

What is the course about?

Our Level 3 Data Technician Apprenticeship is suited to any sector where data is generated or processed. As an apprentice, you will source, format, and present data securely in a relevant way for analysis using standard methods. You will communicate outcomes appropriate to the audience, analyse structured and unstructured data to support business outcomes, blend data from multiple sources as directed, and apply legal and ethical principles when manipulating data. In your daily work, you will interact with a range of stakeholders and will typically work as part of a wider team.

Why should I choose the course?

You should choose this apprenticeship if you are looking for a career in Data Management. You will gain an understanding of the fundamentals of dealing with data, including sourcing, collating, error checking, formatting, analysing, and presenting. This is a growing business area and you will be equipped to handle all of the core elements for a substantial bedrock on which to develop your career.

What will I learn?

During your time on the apprenticeship, you will cover a range of topics such as data security, legislation, formatting data, correcting data, blending data, securely storing data, and assessing reliability of sources.

How is the apprenticeship delivered?

Classroom sessions provide you with the underpinning knowledge, skills, and behaviours required to successfully achieve your apprenticeship.

In addition, one to one sessions take place in the workplace to complete progress reviews, observations of work-based activities, professional discussions, and assess workplace product evidence.

What will the course lead on to?

You may choose to continue your studies with a higher-level apprenticeship (level 4 or degree level apprenticeship).

What support is available?

We have a team of staff dedicated to providing learning support if it is required and a Wellbeing Team that are on hand to offer guidance, support and help when needed.

Why should I choose to study the course at Warrington & Vale Royal College?

We are one of the top-performing further education colleges for apprenticeships. Over nine in ten of our apprentices continue in employment or receive a promotion once they have completed their apprenticeship. We also have a dedicated apprenticeship matching service which matches your skills to a suitable apprenticeship employer. The college is dedicated to supporting you on-programme and helping you progress on to the next step.

What are the entry requirements?

Individual employers set the selection criteria, but this is likely to include five GCSEs, including English and maths. However, some employers will accept other relevant qualifications and experience, including a relevant level 2 qualification. If you do not have English or maths at level 2, you must achieve this prior to taking the end-point assessment. You must hold at least one functional skills qualification or equivalent in English or maths to begin the apprenticeship.

Are there any additional costs associated with the course?

There are no additional costs to the student.
