

## What is the course about?

This course covers the fundamentals of video production for a wide range of purposes, from capturing your own footage to enhancing existing content across different settings. You'll gain a solid understanding of techniques to create and improve your video projects. It's perfect for anyone looking to take greater control over their video production, including podcasters and others wanting to elevate their video content.

## Why should I choose the course?

If you want to develop practical skills in video production, from shooting footage to editing and enhancing your content, this course offers the perfect hands-on introduction. It's ideal for anyone eager to take control of their video projects, improve their storytelling, and create polished videos for a variety of uses.

## What will I learn?

You'll discover the full potential of video creation and enhancement through hands-on learning. The course includes:

- Core video fundamentals and shooting basics
- An introduction to popular video editing tools
- How to enhance videos with effects, text, and colour correction
- Developing a structured editing workflow alongside storytelling skills
- Exporting and sharing your final project with confidence

Throughout the course, your tutor will provide informal assessments, and you will track your own progress with weekly self-assessments.

## What will the course lead on to?

After completing this course, you may progress to another short course.

Whether you're looking to upskill, work toward a promotion, explore a pathway to university, or simply meet new people, there's something for everyone.
